

Li Fan/范丽, MD

Professor

Department of Radiology

The Second Affiliated Hospital of Naval Medical University

(Shanghai Changzheng Hospital)

Prof. Fan Li, acts as the Deputy Director, Department of Radiology, The Second Affiliated Hospital of Naval Medical University (Shanghai Changzheng Hospital); Doctoral (Postdoctoral) Supervisor. She is a visiting Scholar from Case Western Reserve University (USA) and American Institute of Radiologic Pathology, and is granted several Prestigious Honors, including Shanghai Oriental Talent Program (Outstanding Talent), Shanghai Medical Rising Star (Distinguished Youth), Shanghai Health System's Highest Youth Award ("Silver Snake Award"), Shanghai Pujiang Talent, Outstanding Youth Award of Chinese Society of Radiology, and "People's Good Doctor • Youth Role Model."

Prof. Fan has many professional leadership, including Executive Committee Member, of Asian Society of Thoracic Radiology (ASTR); Vice Chair of Youth Committee of Chinese Society of Radiology; Member of Thoracic Imaging Committee of Chinese Society of Radiology; Vice Chair of Big Data and Scientific Research Working Group of Chinese Society of Radiology; Committee Member of Shanghai Society of Radiology; and Chair of Thoracic Imaging Group of Committee Member of Shanghai Society of Radiology.

Prof. Fan focused on overcoming clinical bottlenecks in early lung cancer diagnosis, delayed COPD pulmonary function assessment, and comorbidity evaluation, pioneered innovative intelligent imaging methods for multimodal precision imaging in thoracic disease screening. She had published 73 SCI papers (24 in Q1 journals, highest IF 21.1) as corresponding/first author in 'Radiology, Military Medical Research, Lung Cancer, and European Radiology' and so on; First in China to implement lung parenchymal ASL perfusion MRI and COPD MR evaluation with 2 over-featured papers; Authored 23 core Chinese journal papers; 5 studies cited in international guideline. Additionally, Prof. Fan holds 15 patents, including 3 PCT international patents.

In addition, Prof. Fan led/co-authored 1 national industry standard, 2 group standards, and 11 international/domestic expert consensus and was the principal investigator of 10⁺ national grants, including Key Program of NSFC and National Key R&D Program; She delivered 30⁺ invited lectures at RSNA, ECR, IASLC, ISMRM, ASTR, and Chinese Radiological Annual Meetings.
