

**Full-time Faculty Positions in Medical Imaging
Institute for Medical Imaging Technology/School of Biomedical Engineering
Shanghai Jiao Tong University, China**

The Institute for Medical Imaging Technology/School of Biomedical Engineering at Shanghai Jiao Tong University (SJTU) has a mission of pursuing world-class excellence in the research, technological innovation, and education in medical imaging.

The Institute invites applications for faculty positions at all levels in several technical areas which include but are not limited to:

- Diagnostic medical imaging technology (MRI, CT, PET/SPECT, multi-modality imaging)
- Therapeutic imaging techniques (Imaging guidance of therapy/robotics, interventional imaging)
- Image processing/analysis and artificial intelligence in medical imaging

Applicants specialized in imaging technology with a high potential for industrial translation are particularly encouraged to apply. Minimum qualifications include an earned PhD degree. Applicants should have outstanding academic credentials and the ability to teach effectively at both undergraduate and graduate levels. Successful candidates will be expected to establish and carry out independent research programs and to perform academic duties (e.g., supervising graduate thesis research and applying for external funding).

Review of applications will continue until the positions are filled. Competitive salary with generous startup funds will be offered based on the experience and qualification of the successful candidates.

Please include in your application a cover letter, curriculum vitae (including your full publication list with 5 of your most important publications highlighted), a statement of research interests and vision, and a list of 5 references with full contact information. Please send your application to:
