

The Center for Information in Medicine and the School of Life Science and Technology are two linked organizations in the University of Electronic Science and Technology of China(UESTC).The School/Center is sparing no effort to strengthen the interdisciplinary research in Brain Science and Information Science. Currently the School/Center has a national research platform “MoST International Joint Research Center for Neuroinformation”, Ministry and Provincial Platforms “MoE Key Laboratory for Neuroinformation”, “Sichuan Province Key Laboratory for High Field MRI Brain Imaging”, as well as “Innovation & Talents Introduction Base for Neuroinformation (111 Project)”.

Due to needs for research development, the School/Center is welcoming high-end talents from home and abroad to join in and work together in MRT techniques, Brain Imaging, as well as translational brain diseases and brain cognition. Candidates can go for “1000 Talents Plan (both long-term and short term, young and senior)”, “Yangtze River Scholars Program (specially appointed, visiting and junior scholars)”and “UESTC 100 Talents Plan”,etc.

一、 **Recruitment Criteria**
